## The Killer Vaccines An Honest Physician Warns of Serious Dangers

### An important message to NewsMax readers:

Dr. Russell Blaylock

Vaccines routinely given to millions of children and adults can be very dangerous to your health, a respected neurosurgeon warns.

"The medical industry is making a fortune promoting and requiring unnecessary vaccinations," Dr. Russell Blaylock warns in ***The Blaylock Wellness Report*** – published by NewsMax.com.

Dr. Blaylock says that during the past few decades we have seen a "vaccination explosion."

For example, the number of vaccines given to children has increased from a few vaccines, for polio and other common childhood diseases during the 1950s, to some 22 mandatory inoculations for many schoolchildren today.

Vaccines are even being promoted for newborns, often for diseases that pose no risk to children. The greatest danger is the vaccines themselves.

And many in the medical community would like to see annual flu vaccinations as mandatory.

Powerful lobbies are pushing for many more new vaccinations to be added to the list!

The popular theory is that vaccines vastly decrease the risk of disease, so the more the better.

But don't believe it, Dr. Blaylock warns.

He argues that vaccinations *themselves* are now causing a major upsurge in childhood diseases, adult maladies – and even deadly ailments such as Gulf War Syndrome and Lou Gehrig's disease.

Dr. Russell L. Blaylock is an admitted medical maverick. He doesn't parrot what the New England Journal of Medicine – which receives heavy subsidies in advertisements – claims.

Dr. Blaylock is a nationally recognized, board-certified neurosurgeon, health practitioner, author and lecturer. He has more than a quarter century of medical experience.

And he is now editing ***The Blaylock Wellness Report*** because he believes too many Americans are not getting the best advice for preventing and dealing with cancer, heart disease, diabetes, brain diseases such as Parkinson's and Alzheimer's, and dozens of health problems besetting the American people. You can get the report by [going here](#).

In his latest report Dr. Blaylock challenges the conventional wisdom that vaccines are the "golden path to health" and offers these startling conclusions:

- Vaccines already may have caused harm to your health.

- Vaccinations are not providing the protection they claim to provide.
- Studies on vaccines, including ones that should link vaccinations with autism are inadequate.

There are serious dangers in our present vaccine policy, a policy that may cause tremendous harm to the human brain.

Deadly and debilitating diseases such as Gulf War Syndrome, Alzheimer's disease and Parkinson's disease may be caused or greatly aggravated by overvaccination.

The mysterious Gulf War Syndrome – which may have killed hundreds and seriously incapacitated tens of thousands of GIs – may have been caused by overvaccination.

In his wellness report Dr. Blaylock says, "Our soldiers were given approximately 17 vaccinations during a short period of time, despite manufacturers' warnings that many of the vaccines were to be spaced over a one-year period."

The interaction of so many vaccinations administered so closely together is extremely harmful and dangerous, according to Dr. Blaylock.

It's an important warning for you, because many doctors like to give multiple vaccines at the same time.

The largely uninvestigated effect on humans of administering several vaccinations together or within a short period of time can be serious.

Dr. Blaylock adds that there may be many long-term harmful effects of vaccinations, especially on the brain. Find out the full benefits by [going here](#).

These effects include:

- A highly stressed immune system unable to combat infections and cancer
- The accumulation of free radicals in the body, which can cause "bystander injuries" and immune system dysfunction
- Advanced aging and general debilitation
- The onset of Parkinson's and Alzheimer's disease, which are now afflicting Americans at ever younger ages

Despite growing scientific evidence of the terrible health effects of overvaccination, pharmaceutical companies and other "big medicine" lobbyists continue to push for many more mandatory vaccinations of children and adults.

## Lifesaving Advice

In ***The Blaylock Wellness Report***, you will discover critically important information that you'll find nowhere else, information that could improve – and maybe even save – your life.

In the current edition you'll discover:

- The hidden link between Lou Gehrig's disease and anthrax vaccinations
- What your doctor won't tell you: harmful chemical additives such as aluminum that you receive in your vaccinations
- The toxic levels of mercury in many vaccines
- How omega-6 oils could be harming your health

- The over-the-counter supplement (beta-1,3-glucan) that can help protect you from anthrax
- The truth about annual flu shots and one study that says they are strongly linked to Alzheimer's
- The safe and sane alternatives to vaccinations
- The vitamins you and your children need to take before and after a vaccine shot

And there's much, much more in ***The Blaylock Wellness Report***. [Just go here now!](#)

Each month you'll hear about the latest medical breakthroughs and the simple ways you can improve and protect your health.

Here are some tips from Dr. Blaylock in the current edition:

- How to avoid overuse of antibiotics.
- How to avoid harmful chemical additives in the food you eat.
- Urgent warning for men: Aspartame, artificial sweetener, may cause sterility and actually shrink your testes.
- How soy products may be harming your health and even promoting breast cancer.
- Childhood obesity: MSG may be the culprit.
- Death in a can: Something most of us drink every day could be slowly killing us.
- Why you should ask your doctor to give you the C-Reactive Protein test.

The information presented by Dr. Blaylock is both timely and extremely important.

Dr. Blaylock's credentials include 26 years of experience in neurosurgery, editorship of the respected *Journal of American Physicians and Surgeons* and *Journal of the American Nutraceutical Association*. He previously served as Clinical Assistant Professor of Neurosurgery at the University of Mississippi Medical Center in Jackson, MS, and is currently a visiting professor of Biology at the Belhaven College in Jackson, Mississippi.

Each month you'll get his ***Blaylock Wellness Report***. Each month it will focus on a major health concern, such as cancer, heart conditions, diabetes, weight control, infectious diseases and many other worries. To get this report [go here](#).

And each month you'll hear some of the best alternative information that may indeed save your life – information buried in the medical literature and rarely seen even by your doctor.

Typically, Dr. Blaylock's ***Wellness Report*** sells for \$96 a year, or \$8 a month.

But as a special offer to NewsMax readers, you can get this report emailed to your inbox in convenient PDF attachment or easily accessibly by a hyperlink online – for just \$4 a month. [Just go here now!](#)

That's a saving of more than 50 percent off the annual subscription price.

And there is no risk. You may cancel at any time with no risk of future obligations – and keep your special report.
